

# Coming to Frisco: Multi-Lane Roundabouts

Two multi-lane roundabouts are under construction in Frisco. The City's first multi-lane roundabout will debut in Summer 2016 when the doors open to the Dallas Cowboys' new World Headquarters and Frisco's publicly owned multi-use event center, "The Ford Center at The Star". The roundabout at 'The Star' is located at Gaylord and John Hickman Parkways.

A second multi-lane roundabout is being built at Teel and Rockhill Parkways by a residential developer. An estimated completion date is yet to be determined. While single lane roundabouts exist throughout our city, primarily in residential subdivisions, these new roundabouts will be the first in our community with two lanes traveling around the circle.

## Roundabout Signs

Roundabout ahead, slow down

Guide signs near the entry to a roundabout show lane designations

Yield to all traffic in the roundabout

Roundabout traffic travels one-way

## Driving a Roundabout

- Observe all road rules
- Slow down
- Choose your lane based on the signs and pavement markings
- Yield for pedestrians in crosswalks
- Yield to traffic in all lanes on your left before entering
- Don't change lanes until you have exited the roundabout
